

Skilled Nursing Facility Utilization – Occupancy Rate

Occupancy Rate of Skilled Nursing Facilities with Community Beds

This Indicator Measures... the utilization of skilled nursing facilities with community beds through the occupancy rate.

This is Important Because... a high occupancy rate indicates a greater number of the elderly population requiring skilled nursing care.

Source: Florida Department of Elder Affairs

Note: The Flagler County rate remained steady over the reporting period. The Volusia County rate decreased slightly over the reporting period.

Unintentional Falls

Rate of Non-Fatal Unintentional Injury Hospitalizations Caused by Falls, Age 65+ per 100,000 Population

This Indicator Measures... the rate non-fatal unintentional injury hospitalizations caused by falls for ages 65 and over per 100,000 population in Volusia and Flagler Counties.

This is Important Because... in Florida, falls are the leading cause of fatal and non-fatal injuries among the population ages 65 and older and result in significant physical, personal, social and economic burden.

Source: Florida Department of Health

Note: The Flagler County rate has increased over the reporting period. The Volusia County rate fluctuated over the years reported.

Probable Alzheimer's Cases

Estimated Percent of Adults Age 60+ with Alzheimer's Disease

This Indicator Measures... the percent of probable Alzheimer's cases in adults ages 60+ based on the county population and Florida Alzheimer's Statistics from the Alzheimer's Association report, *Alzheimer's Disease Facts and Figures*.

This is Important Because... Alzheimer's disease is the fifth leading cause of death for those age 65 and older.

Source: Florida Department of Elder Affairs

Note: The percent in both Flagler and Volusia Counties increased over the years reported.
