

Persons with Disabilities Median Earnings

Median Earnings for Persons with Disabilities (Ages 16 and over)

This Indicator Measures... the median earnings during the 12 month reporting period for those who are 16 years and over with a disability with earnings.

This is Important Because... persons with disabilities can contribute equally to the work force and community as well as benefit economically and socially.

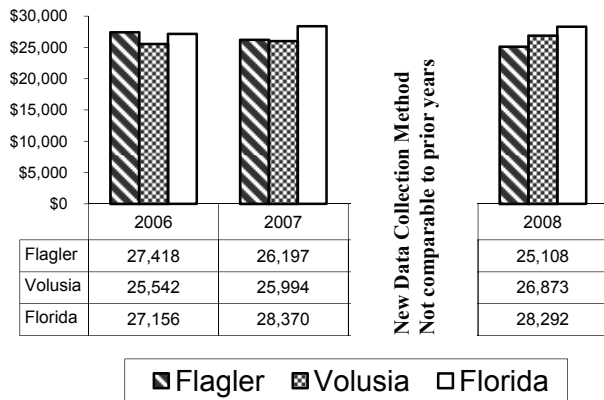

Source: U.S. Census, American Community Survey

Note: The age grouping is predetermined by the American Community Survey. This data is not available annually prior to 2006. The Census Bureau used a new set of questions regarding disabilities in 2008 and recommends against comparisons to prior years.

Persons without Disabilities Median Earnings

Median Earnings for Persons without Disabilities (Ages 16 and over)

This Indicator Measures... the median earnings during the 12 month reporting period for those who are 16 years and over without a disability with earnings.

This is included for comparison purposes for the above indicator, Persons with Disabilities and Poverty.

Source: U.S. Census, American Community Survey

Note: The age grouping is predetermined by the American Community Survey. This data is not available annually prior to 2006. The Census Bureau used a new set of questions regarding disabilities in 2008 and recommends against comparisons to prior years.

Households with at Least One Person with a Disability

Percent of Households with At Least One Person with a Disability

This Indicator Measures... the percent of households where at least one person with at least one disability lives.

This is Important Because... to ensure adequate access to services for persons with a disability and caregivers, it is important to know the size of the population who may potentially need to access services.
