

Persons with Disabilities and Poverty

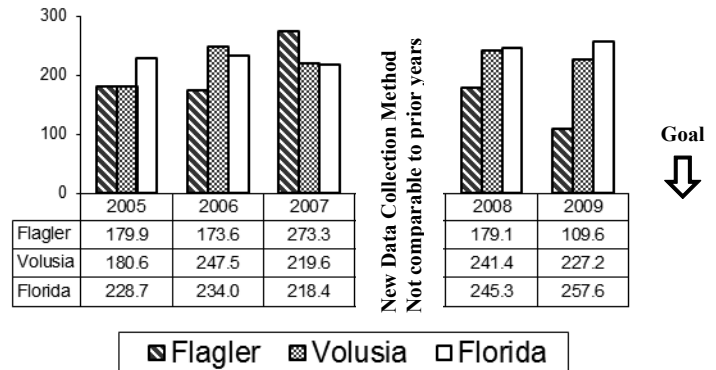

Rate of Adults with Disabilities and Below the Poverty Level, Per 1,000 Population

This Indicator Measures...the rate of adults (ages 21-64 for 2004 – 2007 and 18-64 for 2008) **with** disabilities who are below the poverty level per 1,000 adults with disabilities.

This is Important Because... having special needs can sometimes contribute to economic challenges and barriers to competitive employment.

Source: U.S. Census, American Community Survey

Note: The age grouping (predetermined by the American Community Survey) changed in 2008. The Census Bureau also used a new set of questions regarding disabilities in 2008 and recommends against comparisons to prior years. This data has a large margin of error.

Persons without Disabilities and Poverty

Rate of Adults without Disabilities and Below the Poverty Level, Per 1,000 Population

This Indicator Measures...the rate of adults (ages 21-64 for 2004 – 2007 and 18-64 for 2008) **without** disabilities who are below the poverty level per 1,000 adults without disabilities.

This is included for comparison purposes for the above indicator, Persons with Disabilities and Poverty.

Source: U.S. Census, American Community Survey

Note: The Census Bureau age grouping changed in 2008. The Census Bureau also used a new set of questions regarding disabilities in 2008 and recommends against comparisons to prior years. This data has a large margin of error.

Households with at Least One Person with a Disability

Percent of Households with At Least One Person with a Disability

This Indicator Measures... the percent of households where at least one person with at least one disability lives.

This is Important Because... to ensure adequate access to services for persons with a disability and caregivers, it is important to know the size of the population who may potentially need to access services.

Source: U.S. Census, American Community Survey

Note: The Census Bureau used a new set of questions regarding disabilities in 2008 and recommends against comparisons to prior years. Flagler data has a large margin of error.
